

Derek McCrea July 08 Artist Newsletter

This and last month have been a pretty busy month for art commissions shown below:

House commission painting.

Back yard of same house commission painting.

Above is a painting commission that will be on a book cover by writer Vicki Pendleton. The book will be titled "Consumed by Your Fire of Love".

"Designer Scarves by Marlena" of Orlando Florida has also been a huge help for me both with publishing several of my works on scarves. I am also honored as Marlena invited me to be a part of several magazine issues in the Florida area, with a focus on business women, specifically the Seminole Womans News. Thanks Marlena for that invite and honor, possibly for the magazine cover. It is due out this month any day now. Designer Scarves by Marlena has a site at <http://www.designerscarvesbymarlena.com>

This month also several of my works sold on backsplash kitchen tile murals.

Below is an amazing digital watercolor work that is now available as prints and also on tile murals I recently completed.

I recently donated the below work as a limited edition print to the Columbus Georgia Center for Autism and plan to present a framed work to the Albany Georgia Mohawk Humane Society Art Saves Animals Auction for Charity.

Zazzle has also recently begun releasing some of my works on "Keds" shoes. On top of over 300 product designs from my works on tiles, coasters, clothing, posters, mousepads, coffee mugs and postage stamps, they now have a new line of "Keds" shoes. Some samples of those products are below. See more at <http://www.zazzle.com/dereklovesheila>

Also many of my works are available on tile at <http://www.artworkontile.com/artist.asp?page=1&artistId=201>

These are affordable backsplashes for kitchens or bathrooms and can be customized to fit different sizes and needs. Over 50 of my works are available on backsplashes. Notice these fine art professionally crafted murals made up of numerous tiles like a puzzle. A few samples are below:

Until next month!
